fibresales Fibre Optic Drop Cable Slitter

Drop Cable Slitter

The Fibresales Drop Cable Slitter is a precision tool designed for the effective and efficient slitting of flat drop cables used in FTTH (Fibre to the Home) installations. This tool ensures clean, consistent cuts without damaging the inner fibre components, making it ideal for installers working with flat cables, such as those used in fibre optic networks. With its lightweight, ergonomic design and durable construction, the Fibresales Drop Cable Slitter is a must-have for professionals aiming for precision and reliability.

Applications:

- FTTH (Fibre to the Home) installations
- Fibre optic cable preparation
- Field installations for telecommunication networks
- Repair and maintenance of fibre optic networks

Features:

- **Compatibility:** Specifically designed for flat drop cables commonly used in FTTH installations.
- **Blade Design:** Dual cutting blades for efficient slitting without damaging the fibre.
- **Ergonomic Grip:** Lightweight, ergonomic design ensures comfortable handling and reduced hand fatigue during extended use.
- **Durable Construction:** Made from high-quality materials to withstand tough working environments and deliver long-lasting performance.
- **Compact and Portable:** Small enough to carry easily in a tool kit or pocket.
- **Precision Cutting:** Delivers clean and accurate slits every time, reducing the risk of damaging delicate fibre cores.

Technical Specifications

- Cable Compatibility: Flat drop cables of various sizes
- Material: High-grade steel blade with a durable plastic casing
- Blade Type: Dual, replaceable blades
- Weight: Approximately 85 grams
- Dimensions: 120mm x 40mm x 25mm
- Cutting Depth: Adjustable to accommodate different cable thicknesses
- Handle Design: Non-slip ergonomic handle
