

fibresales Fibre 2.5mm and 1.25mm Cleaning Swabs

2.5mm and 1.25mm Cleaning Swabs

The fibresales 2.5mm and 1.25mm Cleaning Swabs are designed for precision cleaning of fibre optic ferrule end-faces, connectors, adaptors, and test equipment. These cleaning swabs are made without adhesives, binders, or fibres, ensuring that no residue is left behind. The anti-static resin sticks reduce static build-up, and the swabs are available in two sizes to accommodate different connector types. Compact, disposable, and easy to use, these swabs are essential for maintaining optimal fibre optic performance.

Applications:

- Cleaning ferrule end-faces inside fibre optic connectors and adaptors
- Removing dust, oil, and small contaminants from connectors, adaptors, and test equipment
- Maintaining SC, LC, FC, ST, and MU fibre optic connections

Features:

- **Residue-Free Cleaning:** Manufactured without adhesives, binders, or fibres to ensure that no residue is left behind.
- **Anti-Static Design:** The swab sticks are made from anti-static resin to minimize static build-up, which can interfere with fibre optic signals.
- **Effective for Various Connectors:** Available in both 2.5mm and 1.25mm sizes to clean ferrule end-faces inside fibre optic connectors and adaptors.
- **Non-Abrasive Material:** The lint-free, non-abrasive tips ensure safe and effective cleaning without damaging the ferrule or connectors.
- **Compact and Disposable:** Lightweight, disposable design makes them easy to use for quick and efficient cleaning in the field or lab.

Technical Specifications

- **Swab Sizes:**
2.5mm Diameter: Suitable for cleaning SC, FC, and ST connectors and adaptors.
1.25mm Diameter: Ideal for LC and MU connectors and adaptors.
Swab Length: 150mm
- **Material:** Non-abrasive, lint-free tips with anti-static resin sticks
- **Manufacturing:** Free of adhesives, binders, and fibres to avoid any residue on cleaned surfaces
- **Application:** Cleaning ferrule end-faces in fibre optic connectors, adaptors, and test equipment
- **Packaging:** Available in packs of 5 cleaning swabs (sold as 10 pcs - 2 pks)
