FIBRESALES FIBRE OPTIC **10G SFP+**

SFP+ 10G

Our wide range of SFP+'s are mostly used in Gigabit Ethernet situations with speeds up to 10Gbps. Suitable for LC connectors.

FEATURES

Hot Pluggable

Fibresales SFP's offers hot swapping capabilities allowing the SFP to be swapped out while the power is still on, preventing the need for network downtime.

Duplex LC Connector

Duplex LC Connector with ranges varying from 300m to 1000Km. Simplex Bi-Directional, CWDM and DWDM SFP's are available also, if needed.

Connection

Fibresales 10G SFP's offer either Multimode, Singlemode or RJ45 Copper Connections.

Compatibility

Fibresales 10G SFP's are compatible with most major brands, including CISCO™, but should you require it, we can re-program the SFP to suit your systems needs. This is all done In-House providing you a quick turn-around service.

SPECIFICATIONS

- Up to 10Gb/s data links
- Hot-pluggable SFP+ Footprint
- LC/UPC type pluggable optical interface
- RoHS compliant and lead-free
- Single +3.3V power supply
- Support Digital Diagnostic Monitoring interface (DDM)
- Compliant with SFF+ MSA Specification
- Low power consumption
- Case operating temperature
 - Commercial: 0°C to +70°C
 - Extended: -10°C to +80°C
 - Industrial: -40°C to +85°C

Ordering Information 10G SFP
