fibresales Fibre Optic 24 Fibre Splice Cassette

fibresales 24 Fibre Splice Cassette

fibresales 24-fibre Splice Cassette is a versatile and efficient solution for fibre optic cable management in both commercial and industrial environments. Engineered to support high-density splicing, this cassette ensures secure and reliable performance for fibre optic networks. Its compact design and robust construction make it an ideal choice for various applications, including telecommunications, data centers, and enterprise networks.

Applications:

- Data Centers
- Telecommunication Networks
- Enterprise Networks
- Industrial Fibre Installations
- FTTx Systems

Features and Benefits:

- **High-Density Splicing:** Accommodates up to 24 fibre splices, making it suitable for demanding network requirements.
- **Compact Design:** Optimised for space-saving installations in racks and enclosures.
- **Durable Construction:** Made from high-quality materials
- **Compatibility:** Supports 250-900um fibre
- **Integrated Splice Holders:** Securely holds spliced fibres for enhanced durability and reliability.
- **Easy Installation:** Designed for quick setup with standard mounting configurations.

Specifications

Parameter	Specification
Capacity	Up to 24 fibre splices
Material	High-strength polymer
Dimensions	210mm x 120mm x 25mm
Weight	250g
Connector Support	LC, SC, others
Operating Temperature	-40°C to +75°C
Mounting	Rack or enclosure-based

Ordering Code:

SC-24 24 Fibre Splice Cassette
