fibresales Fibre Optic Quick Clean Connector Cleaner

fibresales QuickClean Connector Cleaner

fibresales QuickClean Connector Cleaner is a compact, efficient, and easy-to-use cleaning tool designed for maintaining the performance of fibre optic connectors. With a single swipe, it delivers superior cleaning results by removing dust, oil, and other contaminants from connector end faces. QuickClean's reliable performance ensures optimal signal transmission and minimises downtime in high-demand environments.

Applications:

- Fibre optic network installations and maintenance
- Data centres and server rooms
- Telecommunications and broadband networks
- Testing laboratories and research facilities

Key Features:

- Simple Cleaning Action: Simple and effective cleaning mechanism for quick maintenance.
- High-Precision Cleaning: Removes dust, grease, and debris from connector end faces to prevent signal loss.
- Compact and Lightweight Design: Easy to carry and use in the field or in the lab.
- Broad Compatibility: Suitable for cleaning SC, LC, FC, ST, and MPO/MTP connectors.
- Long Cleaning Life: Provides up to 500 cleanings per unit, reducing replacement frequency.
- Anti-Static Properties: Minimizes static buildup during the cleaning process.

Specifications

Feature	Specification
Cleaning Method	Dry, mechanical push-action
Compatibility	SC, LC, FC, ST, MPO/MTP connectors
Cleaning Cycles	Up to 500 cycles per unit
