

FIBRESALES FIBRE OPTIC
296S RACK MOUNT
SLIDING ENCLOSURE

FIBRE MANAGEMENT

The fibresales 296S Rack Mount Sliding Enclosures promotes efficient and organised cable management. This allows for fast set up and easy changes. A record book to keep track of all cables is also provided. The fibresales Rack Mount Sliding Enclosures optimises the cables bend radius with a inner splice cassette to reduce the amount of space necessary to store cables.

HIGH DENSITY

The fibresales Rack Mount Sliding Enclosure comes with dual splice cassettes providing a higher density of cable coverage of up to 96fibres. The dual splice cassettes allow all cables to reach maximum bend radius without damaging the fibres. This maximises the limited enclosure space provided and the fibres full capabilities.

SUITABLE CONNECTOR STYLE

The 296S 2RU fibresales Rack Mount Sliding Enclosure comes with a variety of connector face plates; SC Simplex, SCA Simplex, SC Duplex, SCA Duplex, LC Duplex, LCA Duplex, LC Quad and LCA Quad.

SLIDING ENCLOSURE

By providing a sliding cable tray on the fibresales Rack Mount Sliding Enclosures, it ensures easy access to all fibres for simple and uncomplicated cable changes when necessary.
