fibreSales Coaxial Wire & Cable Stripper

COAXIAL WIRE & CABLE STRIPPER

Adjustable double-blade stripping tool for RG58, RG59, RG62 and RG6

Fast, controlled coax preparation

Prepare common coaxial cables for connector termination with a compact, fully adjustable hand tool. The double-blade design supports selectable 4, 6, 8 and 12 mm stripping lengths.

- RG58 (3C2V), RG59, RG62 and RG6
- Double-blade stripping system
- Fully adjustable design
- 4 / 6 / 8 / 12 mm strip lengths
- Simple lock, rotate and remove operation

Key Features:

- | | |
|------------------------|----------------------------------|
| • DOUBLE BLADES | Controlled coax stripping |
| • ADJUSTABLE | Set for cable and strip length |
| • 4 LENGTHS | 4, 6, 8 and 12 mm |
| • MULTI-CABLE | RG58, RG59, RG62 and RG6 |
| • HAND OPERATED | No battery required |
| • EASY PROCESS | Lock, rotate clockwise, pull off |

• HOW TO USE

1. Adjust for the cable and required strip length.
2. Lock the tool over the coaxial cable.
3. Rotate clockwise around the cable.
4. Pull away the unwanted cable material.
5. Inspect the prepared cable before termination.

Specifications

- | | |
|---------------------|------------------------------|
| • Tool type | Coaxial cable stripper |
| • Cable | RG58 (3C2V), RG59, RG62, RG6 |
| • Blades | Double blade |
| • Adjustment | Fully adjustable |
| • Strip lengths | 4, 6, 8 and 12 mm |
| • Strip lengths | |
| • 4, 6, 8 and 12 mm | |

INSTALLATION TIP | Check blade depth whenever the cable type changes. Correct adjustment helps protect the braid, shielding, dielectric and centre conductor.
